EDUCATION

Sir M. Visvesvaraya Institute of Technology

2023 - 2027

B.E. in Electronics and Communication Engineering | **CGPA - 8.4**

Bengaluru, Karnataka

EXPERIENCE

Web Development Intern

June 2026 - July 2026

InAmigos Foundation

Remote

- Built a fully responsive NGO website using HTML5, CSS3 & JavaScript, featuring a hero slideshow, animated counters, and mobile-first layout
- Audited 7 live pages, identifying 13 UX/security issues including one critical vulnerability
- Proposed 5 key website improvements via an annotated Figma board, accelerating delivery with AI-powered tools

TECHNICAL SKILLS

Languages & Core: Kotlin, Python, JavaScript, C, C++ | Data Structures & Algorithms, OOP, Problem Solving

Development: Node.js, Express.js, MongoDB, JWT | Android Development, Jetpack Compose, Firebase, Realtime Database, XML

AI & Data: Pandas, NumPy, LightGBM, Feature Engineering | Generative AI, Prompt Engineering, LLM Integration, API Integration, Requirements Gathering, Process Mapping

PROJECTS

InterviewGen | AI Interview Prep Platform | MERN Stack, Gemini API, JWT

2026

- Implemented Gemini API to evaluate resumes against job descriptions, generating match scores, skill-gap analysis, and interview questions
- Built a React frontend and Node.js/Express REST API for resume submission, AI report generation, and report retrieval
- Secured sessions with JWT (HTTP-only cookies), persisted reports in MongoDB, and enabled PDF export via Puppeteer

MealMind | Zomathon 2026 | Python, LightGBM, Google Gemini API, Pandas

2026

- Developed a two-stage food add-on recommender: retrieves 50 candidates via co-occurrence, ranks with LightGBM to serve top-8 in under 300ms
- Integrated Gemini to detect missing meal components from cart state and dynamically adjust recommendations
- Engineered 34 features, improving AUC-ROC from 0.753 to 0.793, driving Rs. 449 lift/session and 21% acceptance rate

Blog App | Kotlin, Firebase Realtime Database, Firebase Auth, Android Studio

2026

- Architected a global article feed with live like counts and a bookmarking system, using structured Firebase Realtime Database logic for cross-session persistence
- Optimized UI performance using Glide for image rendering and Coroutines for asynchronous data fetching
- Streamlined navigation with Parcelable data passing and high-performance content rendering via NestedScrollView

CERTIFICATIONS

Full Stack Web Development | Udemy

Foundations of Prompt Engineering | AWS

The Complete Android and Kotlin Development | Udemy

Career Essentials in Generative AI | Microsoft and LinkedIn

EXTRACURRICULAR

E-Cell SMVIT | Corporate Relations Co-Head

2025 - Present

Organized and promoted entrepreneurship-focused events on campus.
