EDUCATION

Sir M. Visvesvaraya Institute of Technology

B.E. - Electronics and Communication Engineering - CGPA - 8.3

2023 - 2027

Bengaluru, Karnataka

TECHNICAL SKILLS

Languages: Kotlin, Python, C, C++, MATLAB

Mobile Development: Android Development, Jetpack Components, Firebase

Core Concepts: Data Structures and Algorithms, OOP, Problem Solving

Tools and Technologies: Git, GitHub, Android Studio, VS Code

Business and AI Skills: Requirements Gathering, Process Mapping, Generative AI, Prompt Engineering

PROJECTS

Secure Authentication System - C++, File Handling, VS Code

2025

- Designed and developed a secure, terminal-based authentication system in C++ supporting user registration, login, and password updates.
- Implemented custom SHA-256 hashing for password encryption without third-party libraries.
- Used modular programming with file-based storage (CSV) to enable multi-user support.

Chat Room App - Kotlin, Firebase Real-time Database, Android Studio

2025

- Built a real-time chat app with user login, chat rooms, and instant message synchronization.
- Used Firebase Real-time Database to broadcast and update messages instantly across users.
- Designed clean UI screens and implemented room-based chat logic for smooth interactions.
- Managed authentication, message handling, and state flow using Kotlin.

Blog App - Kotlin, Firebase, Android Studio

2026

- Integrated a global article feed with live like counts and cloud-synced states via Firebase Real-time Database.
- Engineered a bookmarking system allowing users to save and retrieve favorite articles across sessions with custom backend logic.
- Optimized UI performance using Glide for image rendering and Coroutines for asynchronous data fetching.
- Streamlined navigation by implementing Parcelable data passing and high-performance content rendering with NestedScrollView.

CERTIFICATIONS

The Complete Android 14 and Kotlin Development

- Learned Android development using Kotlin, including UI design, Jetpack components, and Firebase integration.

Career Essentials in Business Analysis by Microsoft and LinkedIn

- Acquired hands-on experience in requirements gathering, process mapping, stakeholder communication, and case-based analysis to design effective business solutions.

Career Essentials in Generative AI by Microsoft and LinkedIn

- Cultivated a solid understanding of Generative AI concepts, ethical AI principles, and productivity tools like Microsoft Copilot through Microsoft and LinkedIn Learning.

EXTRACURRICULAR

E-Cell SMVIT: Corporate Relations Co-Head <i>Organized and promoted entrepreneurship events on campus.</i>	<i>2025 - Present</i>
NSS Unit (SMVIT - Member) <i>Contributed to community service initiatives.</i>	<i>2024 - Present</i>
